日常工具介绍

The image displays a collection of 15 presentation slides, numbered 1 through 15, arranged in a grid. The slides are related to information security and cover various aspects of the topic:

- Slide 1:** Information Security Awareness and Operations
- Slide 2:** Main Content, listing four key points: 1. People are the main link, 2. Pay attention to internal security, 3. Improve the security of the system, 4. Improve the security of the network.
- Slide 3:** 5 Points, discussing the relationship between products, technology, and security, with the slogan 'Talk about it, and the wind will fly'. It includes an image of a computer mouse.
- Slide 4:** What is Information Security?, featuring images of a hard drive and a router, and stating 'Not just products, technology is information security'.
- Slide 5:** Information Security is Everywhere, showing a central hub with various icons representing different security risks.
- Slide 6:** How to Improve Information Security?, discussing the importance of employee training and system updates.
- Slide 7:** Where is Information?, featuring a pie chart titled 'WHERE'S THE KNOWLEDGE?' showing that 42% of employees have paper documents, 26% have electronic documents, and 22% have other information.
- Slide 8:** Small Test, containing a list of questions about password security and device safety.
- Slide 9:** Prerequisites, listing requirements for information security such as hardware, software, and personnel.
- Slide 10:** This is the Most Common and Dangerous Problem!, highlighting the issue of password security.
- Slide 11:** Thought Conversion (I), discussing the importance of employee awareness and the role of management.
- Slide 12:** WHY??, illustrating the consequences of security breaches using a cartoon character.
- Slide 13:** Thought Conversion (II), emphasizing that information is more important than money and should be protected.
- Slide 14:** WHY??, listing various security risks and the need for comprehensive protection.
- Slide 15:** Thought Conversion, discussing the importance of employee awareness and the role of management.
